

## Portable GPS Navigation System

# TomTom GO 300

TomTom's products use small global positioning system (GPS) receivers to fix a device's location to within a meter anywhere on earth. This location is then combined with the latest maps and navigation software to help you find your way.

Nothing could be easier to use than the TomTom GO. With no installation or set-up required, it gives you clear spoken instructions on where to go, in 17 countries and 32 languages. It has a built-in GPS receiver and shows you the road ahead in clear colorful 3D graphics.

The GO has a long-life rechargeable battery that you can charge at home or in the car. The GO is "Plug and GO" and easy to mount so you can transfer it from car to car in seconds.

### Easy

- Just plug in, switch on & GO
- Simple touch-screen operation
- Clear, accurate turn-by-turn voice instructions
- Compact, portable design; easy to take from car to car
- Crystal-clear 3D navigation

### Smart

- Integrated GPS antenna
- Speaks more than 30 languages
- Over 50 voices to choose from
- Millions of points of interest available

### Connected

- Built-in Bluetooth™ connection
- Ready for TomTom PLUS services (real time information on weather, traffic, etc.)
