

# Bus Compliance Made Easy

## Accreditation Manager and TomTom BRIDGE

Bus compliance and safety regulations are complex and constantly changing. Bus companies (big and small) are often more focused on their day-to-day operations & reducing costs rather than worrying about their compliance obligations. In addition, while the paperwork associated with compliance is necessary, it is also tedious & time-consuming. Fortunately, Accreditation Manager can provide a customized solution that will significantly reduce paperwork and help streamline your business' compliance obligations.

Accreditation Manager is a fully automated compliance management software system which assists bus operators through their compliance obligations with a unique 'click-fix' process. The system is cloud based, constantly updated to the latest regulations and is completely compatible with the TomTom BRIDGE. As an Accreditation Manager user, business' compliance obligations will always be addressed & up-to-date.

Together with TomTom BRIDGE, our technology provides an industry specific system which gives:

- Drivers the information and security they need to drive safely and economically
- Businesses the knowledge and insight they need to make evidence-based decisions with minimum downtime

### The solution

- Cloud based system which assists bus operators through their compliance obligations with a unique 'click-fix' process
- Customized compliance documents that are constantly updated to the latest regulations
- TomTom BRIDGE & system provides turn-by-turn navigation, driver messages, real time tracking & driver performance reports

### The results

- Always up-to-date compliance
- Better, safer, smarter drivers
- Safety certified systems to AS/NZS:4801
- Reduced management time with exception alerts

*"Accreditation Manager and TomTom deliver state-of-the-art solutions for always up-to-date compliance, improved bus driver safety & operational efficiency while reducing carbon emissions & costs." ~ Start's Bus Service, Jamie Start, Director*
